Rhode Island Red has moved his emporium from the Edge block to the Sartoris block.

THANKSGIVING SERVICE AT UNION CHURCH

The annual service in commemoration of Thanksgiving and Armistice will be held at the Union church on Sunday night next, commencing at 7.30. The church will be fittingly decorated for the occasion and special music will be rendered.

Services at the Union church of late have been well attended, and on some occasions the building is crowded to standing space. Additional seating accommodation will be arranged for Sunday night next.

LIME KILN MANAGER DROWNED

Albert Greer, manager of the Summit Lime Kilns at Crow's Nest Lake, met death by drowning at a late hour on Saturday last. Mr. Greer, with his boy, was cruising around the shore of Crow's Nest Lake in quest of ducks. He shot at one, killing it and proceeded in a boat to secure the bird. In some unaccountable manner he upset the boat and was drowned. Up to the present the body has not been recovered.

The late Mr. Greer was a returned veteran and highly respected. He leaves a widow and two children, who have been residing in Vancouver.

DEATH OF EDMUND DISNEY

It is with regret that we this week chronicle the death of Mr. Edmund Disney, of Coleman, which occurred at London, England, on Sunday.

Mr. and Mrs. Disney and daughter Elsa, have been visiting in England for some months, the trip taken largely for the benefit of Mr. Disney's health.

Mr. Disney was one of the most highly respected citizens of Coleman. For a number of years he held the positions of alderman and school trustee, and for the past couple of years has filled the position of mayor and chief magistrate.

Mr. Disney was a pioneer of the Crow's Nest Pass, having come to Coleman some twenty years ago, where he set up business as a building contractor, after having spent some years ranching in the Grand Forks country. He was connected with the Anglican church at Coleman and was a past master of the Masonic lodge. Besides his wife, he leaves three daughters, two of whom are married and residing in Alberta. Mr. Disney was but fifty years of age.

There are said to be 25 million bachelors in America and 19 and one half million spinsters.

MEMBER ATTENDS MEETING OF RAILWAY COMMISSION

Mr. Hugh M. Shaw, M.P. for Macleod Riding, was in attendance at the meeting of the Board of Railway Commissioners at Calgary on Monday and used his influence towards the rejection of local daylight trains. Macleod to Calgary and Lethbridge to Crow's Nest, which it was proposed to cancel, and it is gratifying to know that these convenient services are to be continued.

ARMISTICE DAY CELEBRATION

At a meeting held in the office of Solicitor Gillis last night, arrangements for the Armistice-Thanksgiving Day celebration were practically finalized. We understand that citizens will assemble around the Victoria Street bandstand about 2 p.m. on Monday, where a procession will be formed and, headed by the Blairmore band, will proceed to the Catholic and Protestant cemeteries, where graves of soldiers will be decorated and devotional exercises carried out. People of all classes and creeds are required to unite in this one great service of paying homage to God and tributes of respect to deceased veterans and heroes. It is expected that if the weather man looks upon the day favorably that thousands of people will be in attendance.

Procession will form at the bandstand at 2 p.m. Wreaths will be placed on the Soldiers' graves and a few words offered by the clergy. A firing squad will be present and the parade will be in charge of Capt. Fisher, Chief Carter and Principal Conway. Return will be made to bandstand, where the National Anthem will be sung, led by the band.

It is requested that everyone endeavor to carry out some scheme of suitable decoration, particularly places along Victoria Street.

It is expected that in this connection, W. A. Buchanan, ex-M.P. of Lethbridge, will be present to deliver an address.

Arrangements are in charge of a committee representative of the Red Cross, I.O.G.E., G.W.V.A., and citizens.

A total of \$46,381.86 was collected in income taxes by the federal authorities for the year 1920-21. Farmers numbering 16,652 paid \$611,735. Professionals numbering 18,206 contributed \$2,642,385. Employees including those working for salaries contributed \$11,301,265, there being 111,621 assessed. A total of 24,483 merchants returned \$7,689,521 and 3277 manufacturers paid \$8,217,700. Altogether there were 194,257 persons assessed.

Silks! Silks!

We have the finest and largest display of Silks in the Crows' Nest Pass and are offering attractive prices this week. Now is the time to buy. Call and see them.

WITH CHILI, TOMATO OR PLAIN SAUCE
A real treat. Every bean cooked just right in the great Clark ovens. - Never hard, never mushy, and the seasoning is delicious.

At Dealers Everywhere

World Happenings Briefly Told

John Boyd Dunlop, known as the inventor of the pneumatic tire, died in Dublin, aged 81.

A bandit held up a drug store in the heart of Vancouver and took \$85 from the till, while the street was thronged with a theatre crowd and two policemen were exchanging small talk 50 yards from the store entrance.

By his expressed wish, Samuel Richard Grubb, a large Tipperary landowner and deputy lieutenant of the county, was buried on the remotest part of the mountain overlooking his estate.

The Department of Finance, Ottawa, acknowledges receipt in an envelope postmarked "Ottawa, Oct. 22" of 16. A slip of paper contained in the envelope was marked "conscience money."

Three armed bandits in an automobile forced the driver of a mail truck to stop on lower Broadway, New York, while they rifled the truck of four pouches of registered mail valued at \$1,000,000 by postal authorities.

Breiter's correspondent at Sydney, Australia, cables that reports from various districts in New South Wales indicate an unusually prosperous season for dairymen, graziers and farmers. There have been prolific herds and cereal crops which promise excellent results.

That an insurance company is not liable to recoup an insured motorist for damages he may have to pay for injuries inflicted by him while drunk, is the decision of the appellate division in a judgment given at Osgoode Hall, Toronto, upholding a decision by Justice Middleton.

Soldiers hurriedly compelled the evacuation of the population in the vicinity of the fort at Aubervilliers, two miles outside Paris, when fire broke out and caused the explosion of gas and other shells. The fort is one of the chain of 40 forts surrounding Paris.

Why guess about it— When you can know about it?

Suppose a guide said—

"This way there's a safe and pleasant road to your destination, with no risks or troubles on the way," and—

"That way there's a road that a good many have stalled on and turned back from, but you may get through."

Which would you take?

Postum is a thoroughly agreeable and satisfying meal-time drink, and you're sure that it's perfectly safe for health. Tea and coffee contain drug qualities which disturb the health of many.

Postum or tea and coffee? Which road?

Why guess when you can know?

Postum comes in two forms: Instant Postum (in tin) made instantly in the cap by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the milk is being prepared) made by boiling for 20 minutes. Sold by all grocers.

Postum for Health
"There's a Reason"

The Eddystone Lighthouse

First One Was Built of Wood in 1696.

The Eddystone rocks are in the English Channel, nine miles south of the Cornish coast, and fourteen miles southwest of the Plymouth breakwater. They are submerged when the tide is in, and the water round them varies from 12 to 150 fathoms. In consequence of the frequent shipwrecks, Mr. Winstanley, in 1696, planned and built a lighthouse of wood 100 feet high. So confident was he of its safety, that he lived in it himself, and expressed a wish to be in it when the wildest storm that ever blew should come.

In 1703 a great storm raged. Before its full force broke, a passing boatman—was Mr. Winstanley's of his danger, and offered to take him off. He refused, but when, after three awful days, the storm subsided it was found that the lighthouse and inventor had been swept away.

YOUNG LADIES, READ THIS

If you are bothered with pimples, rashes and red blotches on your face, if your complexion is sallow, it's an evidence that you require Dr. Hamilton's Pills to tone up the blood. One of these splendid regulating pills makes a complexion like peach bloom—cheeks soon become rosy, eyes brighter, you again look the picture of health, look and feel well because you use Dr. Hamilton's Pills of Man, Drake and Butternut, 25c at all dealers or The Catarhozone Co., Montreal.

New Building Material

Straw Mixture Said to Be More Durable Than Concrete.

Investigations conducted by experts at Alberta University have satisfactorily proved the possibility of making a building material out of straw. By a secret process chopped straw is mixed with other ingredients and the resulting composition is said to be a material capable of "withstanding more severe tests than concrete." With the enormous quantities of straw available from the grain crops of the prairie provinces, little economic use of which is made at present, the success of the new material may revolutionize the building trade in the west.

Britain's Duty In India

Social and Racial Disorders Must Be Checked.

The times seems to have come when vigorous measures must be taken to curtail the license of Gandhi and his followers, and other disorders which threaten the public tranquility. That should be done even at the risk of some "excesses" among that minority of the population who take an active part in the councils and the elections. The vast, overwhelming majority of the 320 millions of the Indian people are much more interested in the maintenance of order and security. No constitutional reforms will avail them if there are wanting; nor can these reforms become fruitful, or lead to further developments, if they are accompanied by those lamentable outbreaks of riot and disorder which it is our prime duty in India to hold in check.—London Daily Telegraph.

Drives Asthma Like Magic.

The immediate help from Dr. J. D. Kellogg's Asthma Remedy is apparent. Nevertheless it is only a natural remedy, used in a natural way. The smoke or vapor, reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

Western Coal Production

Figures For 1920 Place Value Over Thirty Million.

The production of coal during the year 1920 for the whole of the North-western Territories was 346,649 tons, while in 1920 production for Alberta alone amounted to 6,008,922 tons, according to the mines branch of the Provincial Government. The 1920 production was valued at \$30,330,172. This amounts to 40.7 per cent. of the total amount of coal produced in Canada in 1920. The report further states that 253 coal mines, 1 copper ore and 2 shale mines were in operation. 38 of which were opened, 12 reopened and 17 abandoned.

Declined Ninety-two Millions.

During September as compared with September a year ago, the total value of Canadian trade declined over ninety-two millions of dollars. For the six months ending September, in comparison with the corresponding period of the previous year, the decline was over half a billion dollars.

The two extremes in human hair are that of the Negro, flat in section and curly, and that of the Mongolian, which is round and straight.

Minard's Liniment for Distemper

W. N. U. 1292

CUTICURA

LEAKS ECCELEA

All over baby's face. Came in water blisters and then formed a solid scale. Begun to itch and burn so had to bandage his hands as he wanted to scratch. Face was badly disfigured. Trouble lasted 4 months. Began using Cuticura Soap and Ointment. Used one cake Soap and one box Ointment when he was healed. From signed statement of Mrs. Albert Ellis, Westburg, N. J.

For every purpose of the toilet Cuticura Soap, Ointment and Talcum are supreme.

Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion. Canadian Depot: 1250, Limited, 250, Montreal.

Cuticura Soap always without mess.

Good Sunflower Yield.

A yield of 1600 tons of sunflower straw from nine acres from the farm of C. E. Thomas and Son, near Lloydminster, Alta., is reported. Five acres of spring plowing yielded 14 tons. The cost of this forage crop, after paying all expenses for plowing, cultivating, seed, rent and all harvesting operations, and allowing ten per cent. for depreciation of equipment, was within a few cents of \$2.00 a ton.

The Druggists All Agree

That "Putnam's" Is Best

The oldest corn remover on the market is Putnam's Corn Extractor, and it is the best. Your corns will all drop out after a few treatments with this painless remedy. Failure to obtain relief is a substitute for "Putnam's," 25c everywhere.

Alberta Sheep Large Wool Clips.

More than two million pounds of wool were clipped from Alberta sheep this year, and 1,927,000 pounds have been shipped east for sale. Members of the Southern Alberta Wool Growers produced 1,900,000 pounds, the remainder coming from Edmonton, Lacombe, Vermilion and other points.

"Cascarets" If Sick

Bilious, Headachy

From The Bowels

Get a 10-cent box now.

You men and women who can't get feeling right who have headache, coated tongue, bad taste and foul breath, who are nervous and upset, who are sick, who are constipated, who have a bad cold. Are you keeping your bowels clean with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil? Cascarets work while you sleep; cleanse the stomach of sour fermenting food and foul gases; take the excess bile from liver and carry out of the system all the constipated poison in the bowels. A Cascarets physic to-night will straighten you out by morning.

Position When Sleeping.

The best position in which to lie when going to sleep (writes a Harley Street specialist in the Daily Express) is without doubt on the right side. Equally beneficial is the habit adopted by many people of lying partially on the back with the upper part of the body and head turned over to the right. To lie on the left side of the body is always harmful.

A man never realizes the worthlessness of his earthly possessions until he tries to pawn them.

DO ALL MY HOUSE WORK

Before I took Lydia E. Pinkham's Vegetable Compound I could hardly get about.

Cobourg, Ont.—"For many years I have had trouble with my nerves and have been in a general run down condition. I could not do my house work half of the time because of the trouble with my monthly sickness. I was told of Lydia E. Pinkham's Vegetable Compound by friends and advised to try it. It has done me good, and I strongly recommend it. Since I have taken it I have been able to do all my own work, and I also know friends who have found it good. You can use these facts as a testimonial."—Mrs. ELLEN FLATRAK, Box 70, Cobourg, Ont.

Why will women continue to suffer so long more than we can understand, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For forty years this good old-fashioned root and herb remedy, which contains no narcotics or harmful drugs, has been the standard remedy for female ills, and has restored the health of millions of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (consulting) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Evening Gown Of Taffeta And Brocade

By Marie Belmont.

Taffeta and brocade in golden brown tones are interestingly combined in the fashioning of this attractive evening gown for autumn. Touches of dull orange and blue are also noted in the brocade and the former shade is used to line the overskirt which has a flaring heading about the waistline. Bronze beads girdle the low waistline and make a striking decoration for the front of the skirt where they are flashed with beaded tassels. Strands of beads—strap the shoulders. A noticeable feature of this gown is the length of the skirt.

Will Form New Colony

Winnipeg Syndicate Proposes to Take Prairie Settlers to B.C.

Sixty-five thousand acres of farm and fruit lands, situated at the head of the Seymour Arm of Shuswap Lake, B.C., have been disposed of to a Winnipeg syndicate which proposes to bring a hundred families from the prairie and colonize the spot. A complete modern colony is planned for the area, which is a four-hour lake trip from Vancouver.

The deal originally was held by the Dominion Trust Company. The deal was handled in Winnipeg by Argue Castle.

India Caste Punishes "Wets."

One of the castes in Delhi, India, has decreed that any member using intoxicating liquor is to be beaten fifty times with a cane. His mistake is to be shaved off on one side and a fine of five cowries is to be imposed.

How's This?

HALLE'S CATARRH MEDICINE will do what you desire for your system of Catarrh or Discharge caused by catarrh of blood upon the surface of the body. HALLE'S CATARRH MEDICINE is a liquid, taken internally, and acts through the system, thus curing the inflammation and restoring the system to normal conditions.

Free Circulars from F. J. Cheney & Co., Toledo, Ohio.

English Is Two-Thirds Latin

Norman-French People Introduced Latin into Our Language.

There are said to be about 100,000 words in the English language. But of these not quite one-third are English words. The rest are mostly Latin. Thus at the very beginning of our attempt to write English we are met by the paradox: The English language consists chiefly of words that are Latin.

English was quite a pure speech up to the year 1066, that is, it consisted only of English words and English phrases. Then, with the Norman invasion of that year, there began to come into England a language which was not English in any sense, but French.

The Norman-French people who settled England gave to English-speaking people several thousand words which in reality were Latin words with a few alterations. Then, at the revival of learning, a still larger number of Latin words came into our language. And since that time new Latin words have been coming into our language and settling there—Detroit News.

The Chinese and Japanese in their fables regard the Milky Way as a stream containing silver fishes. African Bushmen and American Indians associate it with lights guiding the paths of wandering spirits.

Liver and Bowels Right—Always Feel Fine

There's one right way to speedily tone up the liver and keep the bowels regular.

Carter's Little Liver Pills never fail. Millions will testify that there is nothing so good for biliousness, indigestion, headache or sallow, pimply skin. Purely vegetable. Small Pill—Small Dose—Small Price.

Use Baby's Own Soap. It's delightful.

Best for BABY—BEST for YOU.

MONEY ORDERS

Dominion Express Money Orders are on sale in five thousand offices throughout Canada.

Increase In Wheat Yield

An increase of 30,000,000 bushels of wheat in the three prairie provinces over last year's crop, is the estimate of the Northwest Grain Dealers' Association. A wheat yield this year of around 260,000,000 bushels is probably a reasonable calculation. Other estimates of the association are: Oats, 233,655,000; barley, 447,650,000; rye, 9,058,000; flax, 5,576,000.

One of the mysteries connected with sunspots is their appearance in larger numbers than usual every eleven years or so.

Make Up Your Mind

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs. Nov. 3, 1921

THE NEED AND THE JOB

Cleveland Plain Dealer: Women in Canada are engaged in several ways to secure their emancipation. Amongst them are in campaign meetings, in the home; that those women do not need any other and that such jobs should be left for men. It is a curious, unadvised argument. One of the main aims of the progressive movement is that the woman who has so often been confined upon the ground of an applicant's need. We do not elect to elect—no mayor—on the basis of any one of these things. At least we are not supposed to. Canada, for service is the one test and if one or more of the women candidates for council best meet this test in their respective wards they should be elected. Let us have an end of this need-trap argument.

POLITICIANS AND BUSINESS MEN

Baltimore Sun: The general proposition holds true that politicians and responsible business men live in two different worlds. Politicians live in the world of politics and business men attend to business. Now business, after all, is the main and final feature of civilization. The politician and the businessman, if necessary, cannot be separated without creating a famine and disaster in Russia; nor can they be checked without producing such war, anxiety and suffering as now exists in the industrial centres of Europe and America. Apparently, then, business deserves a most prominent place among the considerations which should influence a politician. International business is encouraged or impeded by national states of mind and politicians should realize the tremendous significance of the emotions which their constituents experience. They should also realize that every important political move, whether national or international in scope, inevitably reacts upon the economic condition of the country which initiates it.

SAYS GOVERNMENT IS

A BARTENDER

Sells Stuff to Make People Drunk and Builds Jails to Put Them in.

MONTREAL, Oct. 31.—Attacks on the Quebec liquor law were featured in some of the churches here yesterday. Rev. W. D. Reid, in St. Mary's Presbyterian church, Westmont, preaching on the subject: "Is the government of Quebec a successful law tender?" asked what must be thought of a government which sells stuff to make people drunk and then builds jails and sends them there when they drink too much. He described the action of the Quebec government as "immoral hypocrisy."

Rev. Dr. J. E. Dobson, at St. John's Presbyterian church, claimed "the provincial control of the liquor traffic in Quebec was a dismal failure with duplicity and lawlessness on the increase."

A convention of South Alberta weekly newspaper men was held at the Palliser hotel, Calgary, on Monday and a meeting of weekly newspaper men of the northern part of the province was held at the MacDonald hotel, Edmonton, on Wednesday. Both meetings were well attended and considerable business of interest to the newspaper fraternity was transacted.

ROCKY MOUNTAIN RIDING IS WORLD'S WONDER PLAYGROUND

By BERT HUFFMAN

The certainties of the world are filled with matchless paintings of the Canadian Rockies. The pictures are not painted by the hand of man, but by the hand of nature. But as the painter's nor words can fully portray the 225 miles of tangled chaos of towering peaks, shadowy gorges, abrupt and dizzy mountain walls, and hidden glaciers which constitute the western boundary of the Rocky Mountain electoral riding in the province of Alberta.

For 225 miles, from North-West Pass, where it splits into the mountain ranges, to the foot of the Thompson, towering 10,000 feet above the sea, in latitude 51 degrees, 30 minutes north, the western boundary of Rocky Mountain riding follows the continental divide from peak to peak and from chain to chain, a great and noble of a grand, beautiful and northward.

Fifth in size in point of square miles in Alberta, the Rocky Mountain riding contains approximately 4,700 square miles of territory, which is divided into 125 townships, or 2,880,000 acres of land, only one-half of which has yet been surveyed.

The ridges of Edson, Clearwater, Grouse and Athabasca are larger than Rocky Mountain. But in point of grandeur and natural wonder, no other spot on the earth compares with this mountainous electoral division of the north.

In the heart of it are located Banff, Lake Louise, Bow and Clearwater Lakes, Crow's Nest Pass and Lake Louise. The mountain ranges which are the backbone of the Rockies, from the north to the south, are the Bow, the Clearwater and Bow in the north, which have birth to the silver Bow River, Kananaskis and Minnewanka in the central section and the Crow's Nest Lake, the source of the middle branch of the Old Man river in the south.

Aside from these five large lakes, which are named and charted on the maps, are scores of hidden yet matchless bodies of water to which the well-trodden trails of the nature lover and Alpinist lead.

Outside the coal mining camps and mountain resorts along the two lines of railroad, the great line reaches of this vast mountain paradise are uninhabited, tenantless, standing unbroken in their silent shadowy heights.

On the floor of the provincial parliament the riding is fittingly represented by Philip Martin, Christopher, of Blairmore, a pioneer who knew this rugged region before the whistle of a mine engine ever broke its silence; and when he speaks for his riding in the halls of provincial parliament, he speaks for one of the most magnificent mountain districts on the earth.

And in his appeals and pleadings for justice for the miners of Alberta, he will speak for the greatest variety of nationalities of any member of the Alberta government, for these coal mining areas have beckoned to all the world, and hither have flocked the Italian, the Slav, the Russian, the French, the Welsh, the Cornish, the Czech-Slovak coal miners, bringing with them the oddly mingling languages, customs and characteristics of their various native lands.

But they are one in aim and necessity—fair wages, pleasant living conditions and a chance to develop into full-fledged Canadians.

Within this riding occurred one of the most stupendous and tragic accidents ever to mar the history of Alberta, the land-slip at Frank, in which an entire section of Trestle Mountain toppled over from a height of 5,300 feet, burying beneath billions of tons of granite, down railroads, mines, village and human beings in a sudden and merciless crash.

Seventy-five human beings lie today under this great mass of stone which filled the narrow valley. Railroad tracks had to be constructed "the place of the beginning."

From the top peaks which stand as sentinels on our western border, it is possible to see the greatest wheat belt in the Dominion—the undulating plains to the eastward; and to the west, across the dim expanses of British Columbia, the rugged and seamed with rich valleys, mountain ranges and westward flowing rivers, it is easy to imagine the swell of the Pacific in the lapping breezes which touch our highest peaks.

Hidden under these vast towers of granite, in our richest and most extensive coal veins and clay minerals, and clothing our foothills are the Dominion's greatest stores of timber. In the Crow's Nest Pass are active coal mines opened up at Blairmore, Coleman, Hillebert, Bellevue, Lily Frank and other lesser camps. On the main line of the Canadian Pacific west of Calgary are the coal mining towns of Eschaw, Banhead, Cammore, and Anthracite.

All the greatest national park in Canada, the Rocky Mountain Park, in which Rocky Mountain riding, Kananaskis river turns the dynamo which whitens the streets of Calgary at midnight and the Elbow river in its precipitous descent from the far foothills, sings through the water taps and hydrants which supply Calgary's 80,000 souls with cooling drink.

At one point where the segment bends farthest, the western boundary comes within nine miles of the eastern boundary which runs straight south at a point west of Calgary. Then the outlook widens again, and towards the Crow's Nest Pass, the riding is some 30 miles in width.

There are five out-tandling lakes, the Clearwater and Bow in the north, which have birth to the silver Bow River, Kananaskis and Minnewanka in the central section and the Crow's Nest Lake, the source of the middle branch of the Old Man river in the south.

Aside from these five large lakes, which are named and charted on the maps, are scores of hidden yet matchless bodies of water to which the well-trodden trails of the nature lover and Alpinist lead.

Outside the coal mining camps and mountain resorts along the two lines of railroad, the great line reaches of this vast mountain paradise are uninhabited, tenantless, standing unbroken in their silent shadowy heights.

On the floor of the provincial parliament the riding is fittingly represented by Philip Martin, Christopher, of Blairmore, a pioneer who knew this rugged region before the whistle of a mine engine ever broke its silence; and when he speaks for his riding in the halls of provincial parliament, he speaks for one of the most magnificent mountain districts on the earth.

And in his appeals and pleadings for justice for the miners of Alberta, he will speak for the greatest variety of nationalities of any member of the Alberta government, for these coal mining areas have beckoned to all the world, and hither have flocked the Italian, the Slav, the Russian, the French, the Welsh, the Cornish, the Czech-Slovak coal miners, bringing with them the oddly mingling languages, customs and characteristics of their various native lands.

But they are one in aim and necessity—fair wages, pleasant living conditions and a chance to develop into full-fledged Canadians.

Within this riding occurred one of the most stupendous and tragic accidents ever to mar the history of Alberta, the land-slip at Frank, in which an entire section of Trestle Mountain toppled over from a height of 5,300 feet, burying beneath billions of tons of granite, down railroads, mines, village and human beings in a sudden and merciless crash.

TO INSTITUTE NEW LODGE AT BELLEVUE

The institution of an Encampment of Oddfellows will take place at Bellevue on Wednesday evening next. The ceremony will be in charge of Murray Saunders, past grand patriarch, assisted by degree teams from Crow's Nest Encampment, Blairmore.

It is expected that the largest assembly in the history of Pass Oddfellowship will be witnessed on this occasion and that the new lodge will start rolling with a membership of near the hundred mark.

Milestones are being passed in quick succession by the Oddfellows of Bellevue, who have been the provincial record breakers in every department.

The ladies of the Sewing Circle of the Union Church will hold a sale of home cooking and serve tea at the Lions Club on the afternoon and evening of Saturday, November the 12th. Ladies and all friends are asked to bear this in mind and endeavor to ensure its success.

TAX SALE

Sale of Lands in the Town of Blairmore and Blairmore School District No 628, for Arrears of Taxes.

NOTICE IS HEREBY GIVEN That certain lands in the Town of Blairmore and Blairmore School District No. 628 will be offered for sale for arrears of taxes and costs at the Town Office, Eighth Avenue, Blairmore, on Wednesday, November the 16th, A. D. 1921, at 10 o'clock in the forenoon.

A list of said lands will be found in The Blairmore Enterprise of October 26.

Unless the arrears of taxes and costs be other paid, I shall proceed to sell the said lands at the time and place above mentioned.

DATED at Blairmore the Sixth day of October, A. D. 1921

F. WRIGHT,

Secretary-Treasurer

—Oct. 6, N. O. 3.

over the top of the slide, 15 to 25 feet above the old tracks. It is one of the sad and tragic wonders of the West, and tourists spend hours gazing on the spectacle.

There are 25 railway stations within the borders of Rocky Mountain riding and 21 postoffices.

The 225 miles of Rocky Mountain riding which forms the western boundary, is the most precipitous, inaccessible and rugged section of the entire Rocky Mountain system. Tourists, mountain climbers, Alpinists, writers, artists, naturalists, lovers of nature and lovers of adventure from every country assemble at the various resorts in Rocky Mountain riding to revel in sport, meditation, rustic life and recreation.

Every crevasse, every gorge every towering bare peak of granite is an inspiration for an epic. One stands aghast at the stupendous upheaval of the earth, which lifted this superb mountain chain above the primeval seas, seaming the recesses with coal for future generations and spreading the marvelous mantle of spruce and fir over the foothills, for man's use and enjoyment, while here and there the fountain of a crystal river was hidden away like a shimmering gem in the dark chambers of the range!

It seems that a human mind could not measure this wonderful spectacle, in calmness and composure, and then doubt the wisdom and foresight of the Supreme Powers which guide the planets in their course!

This eastern slope of the Rocky Mountains, which we have measured and scanned and set feeble boundaries about, and called Rocky Mountain riding, is at the same time one of the most colossal and marvelous works of nature, worthy of a place in history beside Olympus, haunt of the gods!

To Auto Owners

Mr. W. M. Bush, of the Blairmore Volcanic and Battery station, and H. J. Berlin have leased the shop in the rear of Smallwood & Sons garage and are fitting it up for an automobile repair shop and when completed will be up to date in every particular. Mr. Bush is an expert on this line and with the assistance of Mr. Berlin they will be able to turn out work second to none in the province. Car owners wishing to have their cars repaired, should place their orders now.—Ad.

Lack of Accommodation

Breakfast-time was still a poem to a young couple, when Arthur would sit and beam as Angelina poured out the coffee dutifully. "Decline?" she said when they had finished, "will you do a little business for me in town today?" He vowed he would do anything. "I want a mouse-trap," she told him. "Another, pet?" he asked in surprise. "Why, I bought you one only the day before yesterday!" "I know you did, darling," she said; "but there's a mouse in that one!"

Remember the Armistice. Commemorative Services in the Church of England at Blairmore and Coleman on Sunday next.

The next war will likely be between the Eskimos of Labrador and parliamentarians of Ottawa and Newfoundland.

Twenty three men were caught stealing a ride on a freight train through the Pass on Saturday last and arrested by the R. C. M. P. at Fernie.

We lose sympathy with the farmers in their fight for irrigation when we find so much water being sold in the milk at five cents a pint.

A grand concert will be given in the local opera house on or about the 17th, proceeds of which will be given to the Catholic church. What for big bills and later announcements.

A Catholic church concert will be held at the opera house at 8 p. m. on Tuesday next. All interested please attend.—J. Oliva, chairman.

At a meeting of the Board of Railway Commissioners, held in Calgary on Monday, the application of the C. P. R. for the withdrawal of daylight trains Calgary to Macleod was withdrawn, so that the service will be continued. There was no application made for removal of The Crow day trains.

Lethbridge reports record time having been made by the C. P. R. telegraph in sending a message to Ottawa and receiving a reply in two hours and seventeen minutes. This time was beaten all hollow at Blairmore about three weeks ago when a message was sent to Montreal and a reply received in forty minutes.

At a recent meeting of the local I.O.O.F. it was decided to award a medal to James Crowder, a past grand. Bro. Crowder was recently blessed with a new son and prospective heir to Oddfellowship. The conditions attached to the medal require that the winner must win it three years in succession to obtain clear title.

A Newfoundland paper remarks that there has been landed in that country during forty days and forty nights enough alcoholic spirits to submerge his Satanic Majesty in such waves of thanks and letters of congratulations from his angelic advisers that it would take a second Moses to lead them out into the sunlight of prohibition. One of the big jokes about the Newfoundland prohibition law is the barring of flavoring essences, novelline, tania, etc., from the market. There was a time when the plum pudding was looked upon as the most important dish at the Christmas dinner table, but now, because of the abolition of the brandy ration, plum puddings are no more, not even on the table of the radical prohibitionist.

Cowley Happenings

Peter Veregin was a recent visitor to Cowley.

John Kemmis was a Macleod visitor on Wednesday.

Gordon Robinson and family have moved into town.

Mrs. Baines, of Lethbridge, is spending a few days in town.

James Edwards has gone to Chicago with a shipment of cattle.

Mr. and Mrs. Ed. Grove, of Lundbreck, won the prizes at the last whist drive here.

On Halloween night, Mrs. Bandy gave a party for the West Wind girls at her home.

An enjoyable evening was spent by the people of Tennyson district at their schoolhouse on the 31st.

Halloween night was observed here by big, little, old and young.

Although a lot of innocent fun was indulged in, no damage was done that we are aware of.

Mrs. Edgates' Sunday school class showed their estimation of her as a teacher by presenting her with a lovely painted dish before she left for her new home.

A large number of Mrs. Edgates' friends gathered at her home on Thursday night, giving her a surprise party. The ladies brought with them cakes, sandwiches, candy, etc., for the dainty lunch which was served after an enjoyable evening had been spent at the old time parlor games, songs, etc. The ladies showed a further appreciation of Mrs. Edgates by presenting her with a set of six cups and saucers and a bon bon dish beautifully painted, and all join in wishing Mrs. Edgates and family all the blessings of health and happiness in their new home, to where they will be going presently.

H. Griesbach, of the local customs office, is enjoying his annual vacation.

Egypt had home brew 4000 years ago. No wonder they know how to pickle their mummies.

Waitress—"What part of the chicken do you prefer, Mr. Hurst?"

Hurst—"Some of the meat, please!"

Mr. and Mrs. Alex. McFegan have returned from Regina, where they had resided for several months.

Thieves stole 7,000 false teeth in Detroit recently. We can't think of a comment sufficiently biting.

A fine residence for P. Ubertino is being erected by Contractor E. J. Pozzi on the south side of Dearborn Street.

Thirty-six persons were drowned when the town of Britannia Beach, B. C., was visited by wind and flood last Friday night.

People now know that the moon isn't made of cheese, but they are still innocent concerning the consumption of moonshine.

Mrs. W. D. Spence, of Calgary provincial president of the I. O. D. E., is in town this week conferring with local members.

No place to draw the color line. A young lady named Black was married to a young man named Black at High River.

Defendant (in a loud voice) "Justice! justice! I demand justice!"

Magistrate—"Silence! The defendant will please remember that he is in a court-room!"

Girls, keep away from Macleod. We actually saw fourteen chickens bereft of their garments by wind there on Tuesday, and as an aftermath feather beds are being manufactured from the fragments gathered up in the vicinity of Lethbridge.

REWARD—Lost, Tuesday evening, brown leather music case, containing music and songs in the name of George Robey. Finder please return to town hall, Eighth Avenue, Blairmore.

Coleman Happenings

Evangelistic meetings are being held in the Institutional church this week.

Mr. and Mrs. Alex. Dewar have a thirteen-pound son. Mother and son are doing nicely.

O. E. S. Whiteside, of the International Coal & Coke Co., was a business visitor to Calgary the early part of the week.

The Women's Institute held their regular monthly meeting at the home of Mrs. H. C. McBurney on Thursday evening, October 27th. An interesting paper was given on Saskatchewan. The Institute has been making a study of the province, which has proved very entertaining and instructive.

A meeting of the Crows' Nest division of the A. A. H. A. was held in Lethbridge on Saturday, October 29th, where the officers were elected for the coming year. Mr. Crickshaw, of Hillcrest, was made president, and Mr. R. G. Powell, of Coleman, was chosen as secretary. Coleman is looking forward to a very lively hockey season.

On Friday evening, Mrs. Price and Miss Louise Price, with Miss Murray and Miss Hickey, gave a Halloween party in Graham's hall. The hall was beautifully decorated with orange and black and on entering each guest was presented with a prophesy of the future by a mysterious spirit. The evening was very enjoyably spent at whist and dancing. The first prizes were won by Miss Horne and Mr. W. Rippon, and the consolation prizes by Miss Dorothy Graham and Mr. W. Hall.

Great credit is due Mrs. Graham for the capable way in which she managed the concert and play, which were given in the opera house on Wednesday night of last week, under the auspices of St. Alban's church. The concert was given in three parts, the first part being a little Japanese drill and songs, which were very pretty. The second part was called "The Pink Pearl" and was also well produced by older girls. The play was given by the adults and afforded a great deal of amusement and fun for all. The opera house was filled to the doors and many people were turned away.

Frank Albert, of Coleman, was fined \$5 in the A. P. P. court at Lethbridge for carrying a box of matches in his grip, checked from Coleman to Calgary.

"Johnnie, the stork has brought you a little sister! 'Aw go on, stork nothing, it was the milkman who brought it. Doesn't it say on his wagon, 'Families supplied daily.'"

Items of Local and General Interest

The program at the Orpheum for the coming week is as good as usual, which is saying something, and after we have seen the pictures mentioned, we will undoubtedly vote them better than usual.

Friday, Nov. 4—Carman Meyers in "Dangerous Moment." This picture is one that will hold you fascinated all through the performance.

Saturday, Nov. 5—"Body and Soul" starring one of the most popular actresses on the screen in the person of Alice Lake. The picture is full of love, romance and adventure and is well worth seeing.

Monday, Nov. 7—"The False Road" with Enid Bennett. Here is a picture that you will all want to see, for the name of the actress alone tells you that it will be a good one.

Wednesday, Nov. 9—George Walsh in "The Plunger." This is a William Fox production and as the name applies to the picture, you have have an idea what it will be like.

Watch for an announcement of a great picture to be shown at the Orpheum on Saturday, November 12. It is being shown in the cities at the present time. The name of the picture is "The Affairs of Anatol" and it has been a great success wherever shown.

25 Years For Killing His Father-in-law

NORTH BATTLEFORD, Sask., Nov. 1.—Twenty-five years' imprisonment was the sentence passed on here on Isaiah Mitchell, by Mr. Justice Bigelow, following Mitchell's conviction on manslaughter in the killing of his father-in-law, Ben Armstrong, at Fort Pitt last June. Mitchell blamed his father-in-law for causing an estrangement with his wife and hit him on the head with a stick.

VOLUNTARY GAME GUARDIANS

An Order-in-Council has just been promulgated by the Minister of Agriculture, and distributed, which provides that voluntary game guardians who secure convictions, or where convictions are secured on the strength of information furnished by any such guardian where he appears as a witness and the penalty has been received by the government, such guardian will be entitled to remuneration equal to 75 per cent of the penalty so collected, but where the penalty exceeds \$20 the remuneration will be 75 per cent of the penalty up to and including \$20 and 50 per cent of any amount over and above \$20.

NO MORE BACHELORS IN TURKEY

An Anti-Bachelor Bill introduced into the Turkish Parliament makes marriage compulsory for men over twenty-five.

Defaulters will be fined a quarter of their earnings, which will be deposited in agricultural banks to help peasants to marry. No adult civil servant may be a bachelor.

Gifts of land, loans, and State education for children are held out as rewards for marriage, with a penalty of hard labor for a confirmed bachelor.

Sergeant Nicholson, of the A.P.P., was a business visitor to Calgary the early part of the week.

Messrs. Fess and Macintosh, of Edmonton, were in town on Monday and Tuesday, conducting the rural tax sale.

A clergyman who advertised for an organist received the following reply: "Dear Sir,—I notice you have a vacancy for an organist and music teacher, either gentleman or lady. Having been both for several years, I beg to apply for position."

T. Clarke, of Macleod, as next of kin to the late George E. Clark, (his brother) of Strathcona House, who was killed in action March 30th, 1918, in the Great War, has just received the bronze medal issued by the British War Office to next of kin of those killed in the Great War. The medal is in bronze in base relief representing Britannia with scimitar in one hand and holding forth a laurel wreath in the other, with the British lion, device of her side inscribed in the metal is "He died for freedom and honor," followed by the name "George Edward Clark." Accompanying the plaque is the following from H.M. George V: "Buckingham Palace. I join with my grateful people in sending you this memorial of a brave life given for where in the Great War. George R. I."

THE NEXT GREAT WAR

That the year 1931 will see the outbreak of a world war, which in ferocity and deadly engines of death will surpass the Great War that broke out in 1914, is a prophecy made by Peter Wright, a councillor of the Seamen's and Firemen's Union of Great Britain and the second outstanding figure in British labor circles. Apart from his

in the British Isles, Mr. Wright is widely known throughout the Dominion as an advocate of sane labor principles and as a keen student of international affairs.

"At the most we must have ten years of peace ahead of us," Mr. Wright said, "and in that time we must prepare to face the worst of all wars known in history. Even now political forces are coalescing, which in the end will bring Germany, Russia and Japan into a triple alliance that will open a new era of strife. I do not believe that we can prevent this war, do what we will, but we can be in a position to meet it and to protect ourselves when it comes. But will we do this? I doubt it."

Among the many things that Mr. Wright learned during his last trip to Germany was the fact that German Diplomacy was already working to make this dream alliance of the future a hard and solid fact. He does not believe that the Germans will have difficulty in accomplishing their desire. Since the days of Peter the Great, German domination of the heart of Russia has been the rule rather than the exception. It was only when the last world war broke out that the latter occurred; then, Mr. Wright says, it was a political expediency rather than a natural inclination.

Butcher—"This pound of butter you sent me is three ounces short!" Grocer—"Well, I mislaid the pound weight, so I weighed it by the pound of chops you sent me yesterday!"

The meeting held on Monday night last to arrange for an Armistice Day celebration and also to discuss the matter of a war memorial for Blaimore was very well attended.

Mr. J. E. Gillis, chairman of the Returned Soldiers' Bureau, presided over the meeting.

On suggestion from Mr. Carter it was decided to erect a memorial and another motion was passed that the nature and design of the memorial be left in the hands of the following committee: Appointed to represent the different organizations interested.

I. O. O. F.—Mrs. R. Green and Mrs. L. H. Putnam.

Red Cross Society—Mrs. J. M. Carter and Mrs. W. Howe.

Returned Veterans—W. Fisher and J. W. Greham.

Citizens—J. B. Wilson and L. Dutil.

Mr. Gillis was appointed as chairman of this committee and a meeting will be held in the very near future to decide what memorial would be most suitable.

The following committee was appointed to look after the Armistice Day celebration: Mrs. J. M. Carter, Mrs. R. C. Green, Mr. P. M. Christensen, M.P.P., Mayor A. McLeod, W. Fisher, D. M. J. Conway, and all the local clergy. Mr. Gillis was appointed chairman of this committee also, and called a meeting for Wednesday eve last to arrange the proper observance of Armistice Day.

Dominion Contest in First Aid Work

The Mining Industry of the Province of Alberta is going to be well represented at the Dominion Contest in First Aid Work to be held in Toronto.

This contest is conducted annually by the St. John's Association, the adjudicator being a representative of the Association from Ottawa. There are four classes and trophies for each class to compete for, and a trophy for the championship of the Dominion of Canada for the highest marks obtained of the four classes.

The four classes consist of Policemen, Firemen, Miners and General First Aid Teams. The adjudicator commences his tests at Nova Scotia and continues right through the Dominion to Vancouver Island.

The First Aid Teams entered for the tests in the work are two teams from West Canadian Collieries, Ltd., Bellevue, one team from the International Coal & Coke Company, Ltd., Coleman; one team from No. 6 C. P. R. Mine, Lethbridge; one team from Chinook Coal Company, Ltd., Commerce; and two teams from Canmore Coal Company, Ltd., Canmore. All of these First Aid teams will be composed of miners and mining officials.

There is also one team R. C. M. P., Lethbridge; two teams from Firemen's Brigade, Lethbridge, and one general team from various industries of Edmonton.

A First Aid Team in Nanaimo, B. C. are holders of the miners' trophy and also the Champion of Canada Trophy. The Contest will be of the keenest, owing to the large number of Miners' Teams who have entered from the province of Alberta. All tests are made at the home town of the First Aid Team.

NEW YORK SKY SCRAPER RESIDENCE HAS GOLD-PLATED DOOR KNOBS; ADMISSION BY VOTE

NEW YORK.—Three hundred Park avenue, New York, the new Sherry apartments, just opened, is probably the most luxurious abode of wealth in the world. It has gold-plated door knobs, silver plated chandeliers and a separate set of elevators running to each of the 16 floors. The apartments really are private homes.

The largest of 30 rooms has been taken by Percy Rockefeller. The yearly rentals range from \$10,000 to \$35,000. There are 90 apartments. Among the leading "director tenants" are Richard T. Wilson, Gen. Coleman du Pont, Col. B. D. McAlpin, Louis J. Horowitz, F.C.D. Page, F. C. Johnson, Louis L. Dunham, and L. M. Boomer. In furnishing the apartments Europe and America have been searched for ideas and materials.

Louis Sherry has installed one-quarter million dollars' worth of thirteen century tapestries in his apartment. Mr. Boomer sent to Norway for the wood used in his apartment, Mr. Boomer being a native of that country. Some of the walls in many of the houses are huge canvases for paintings by noted artists. A magnificent ballroom, restaurant, a grill, a tea-room and confectionery shop occupy the first floor and mezzanine. If you want to locate at "Three Hundred Park Avenue," you must be voted upon by the "director tenants," who are particular, very particular, indeed.

According to a French society which has translated the Bible into 517 languages, there are about 600 languages and dialects in the world.

LOOKING AHEAD

4 November—Grande Balls Publico nella Sala dell'Unione, Hillcrest, La Societa Italiana.

Monday, Nov. 7—Football Club Dances in the Blaimore Opera House. Good music and good time.

Friday, Nov. 11—Bellevue Junior Hockey Club Dances in the Oddfellows' Hall at Bellevue. The boys want all support possible.

Tuesday, Nov. 16—Blaimore Bachelors' Second Annual Dance with the Band, orchestra in the opera house. The Bachelors—nuff said!

Tuesday, Nov. 16—Grand Concert in the Oddfellows' Hall, Bellevue. To play, "Too Much Married" will be put on and the proceeds will go to the new Institute building.

Blaimore Lodge, No. 68, meets every Tuesday at 8 p.m. in the Oddfellows' hall. Officers for coming term: W. Patterson, N.G.; J. Patterson, S.G.; W. T. Patterson, R.S.; J. Montabetti, treasurer.

Crowley Nest Entertainment No. 8, meets on the second and fourth Wednesdays of the month in the L.O.O.F. hall at 8 p.m. Officers: E. Eckman, C.P.; J. Montabetti, treasurer.

Crowley Rebekah Lodge, No. 83, meets the first and third Thursdays of the month at 8 p.m. Social evening every alternate Thursday. Officers: Sister Neve, N.G.; Sister Patterson, V.G.; Sister Randall, R.S.; Sister Fraser, F.S.; Sister Archer, treasurer.

Bellevue Lodge No. 118, meets every Monday night at 8 o'clock in the L.O.O.F. hall at Bellevue. T. Drayley, N.G.; Fred Padgett, V.G.; H. Barless, Secretary.

Key of Hope Rebekah Lodge, No. 67, meets the 2nd and 4th Wednesdays of the month in the L.O.O.F. hall, Bellevue, at 8 p.m. Officers: Sister Neve, N.G.; Sister Patterson, V.G.; Sister Randall, R.S.; Sister Goodwin, treasurer. All Rebekahs welcome. We get in for a good time.

Visiting members of above branches of the Order cordially invited to attend these meetings.

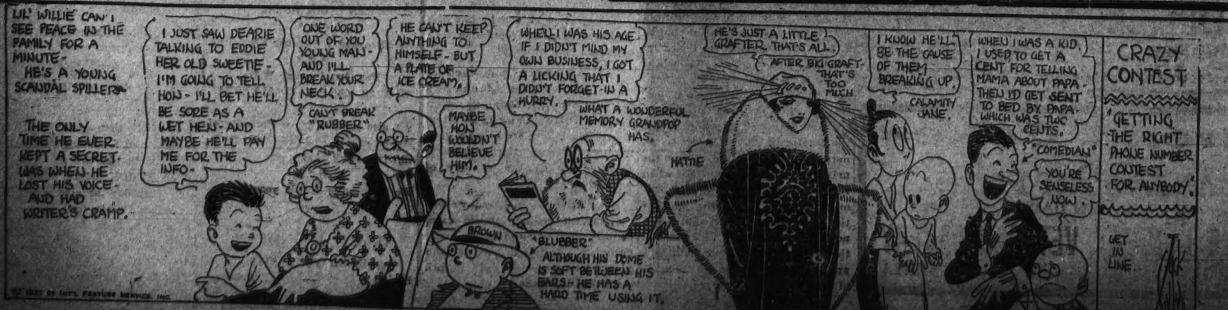

CLARKE & CO.

From Lethbridge, will display on **FRIDAY and SATURDAY** at OUR STORE, a complete range of up to date **LADIES'**

SUITS, COATS, SKIRTS, DRESSES, SMALL FURS, FUR COATS, WAISTS, PETTICOATS, HOSIERY, Silk UNDERWEAR and Hand Bags.

TITLE TO TAX SALE OF RURAL LAND DURING 1922

Land Titles Office Instructed Not to Register Titles to Land Acquired in 1920, Until April, 1922.

Persons who purchased property in the 1920 tax sale will not be permitted to gain clear title to it until April of 1922, according to advice, which has recently reached the land titles office of this province. This office has been instructed by the department of the attorney-general not to register titles to any lands acquired in the 1920 tax sale until April. It is understood that this order has gone out in view of the fact that the general feeling is that the law governing tax sales is at present in an unsatisfactory condition and that an amendment is advisable. There are aspects of the present law which it is felt will not stand certain legal tests and it is therefore necessary to make such changes as will render the law airtight. Although no information as to probable amendments has been received in Calgary, it is thought that the government is contemplating introducing same at the next session of the legislature.—Exchange.

DECREASE IN MAJOR CRIME

Crime has increased in Canada in 1920 over 1919; is the latest report from the Dominion Bureau of Statistics. But the increase is in minor offences—drunkenness and illicit sale and manufacture of intoxicating liquors.

We have men and women who argue that our liquor laws are bad and should be removed from our statute books because of the increased crime of bootlegging, perjury and subordination of perjury.

Should these minor crimes, that are only a passing phase of the prohibition movement, offset figures like the following that prove that under prohibition crime is actually decreasing: Ottawa, Sept. 29.—Crime in Canada during the year 1920 increased 25 per cent over 1919, according to figures compiled by the Dominion Bureau of Statistics. The increase was, however, for the most part, in minor offences. During 1920 there were twenty convictions of murder as against 28 in the previous year; attempt to commit murder, 19 as against 32, and manslaughter 43 as against 32. The convictions for bigamy numbered 71, the same number in the previous year. For various forms of assault the total numbered 2,220 in 1920 and 1,935 in 1919. Assaults on females increased from 22 to 70. What are known as aggravated assaults decreased from 471 to 445. The years in question date from and to Sept. 30.

The number of convictions for burglary in 1920 was 2,072 against 2,420 in 1919. Highway robbery fell from 32 to 10 cases. There was a slight reduction in convictions for theft; 43 to 34. Forgery cases showed an increase from 377 to 419. Thirty-one persons were convicted of attempt to commit suicide, the number being only 20 in 1919. Conspiracy cases increased from 6 to 58. There were 239 convictions of having illicit stills, a crime which does not appear in the 1919 column.

Cases of drunkenness in 1920 numbered 39,769 against 24,217, an increase of 64 per cent, and there was a large increase in violations of the liquor laws. During both years under review, the convictions for vagrancy were a little less than 11,000. Fines paid on conviction of drunkenness during 1920 amounted to \$315,090, and on account of breaches of prohibition and other liquor regulations, \$142,275.

Work on the Blairmore arena is progressing very rapidly and it is looking more like a building every day. Contractor Pozzi has a large force of men working on it and expects to have the building completed by December 1st. The recent weather has helped greatly with the work and providing it holds out, the arena will be a surety by December 1st.

A GOOD HEALTH ALPHABET

As soon as you are up shake blanket and sheet;
Better be without shoes than sit with wet feet;
Children if healthy are active, not still;
Damp beds and wet clothes will both make you ill;
Eat slowly and always chew your food well;
Freshen the air in the house where you dwell;
Garments should never be made too tight;
Homes should be healthy, airy and bright;
If you wish to be well, as you do I've no doubt,
Just open your windows before you go out;
Keep your rooms always tidy and clean;
Let dust on the furniture never be seen;
Much illness is caused by the want of pure air;
Now, to open your windows be ever your care;
Old rags and old rubbish should never be kept;
People should see that their floors are well swept.
Quick movements in children are healthy and right;
Remember the young cannot thrive without light.
See that the easter is clean to the brim;
Take care that your dress is all tidy and trim;
Use your nose to find if there be a bad drain.
Very sad are the fevers that come in its train.
Walk as much as you can without feeling fatigue;
Nerves could walk full many a league.
Your health is your wealth which your wisdom must keep,
Zeal will help a good cause, and the good you will reap.

WARN DRUGGISTS AGAINST STOCKING UP

Notices have been sent out by the attorney-general's department, thru the province to the effect that the government will not be held responsible for any inconveniences that may be caused by them if, on or about March 1st, the provincial government should decide to prohibit the druggists from carrying liquor in stock.

Notice is being given, explains Hon. J. E. Brownlee, so that the druggists may be prepared in good time for the immediate enactment of whatever new legislation on liquor act lines is passed by the house after the new year, or whatever new regulations may be passed in the meantime by the government.

No indication is given as to what action is proposed the sole purpose of the department being to advise the trade so that it may arrange its buying of liquor stocks accordingly.

In some cases there is said to have been a disposition to stock up somewhat heavily, and the warning now is that it might be the wiser course to "go easy."

COMPLETE AUDIT IS BEING CARRIED OUT

A complete audit of the books and accounts of the Alberta government has been decided upon by the executive council, and will be commenced in a few days. It will cover all departments and branches of the government service, including the offices in Calgary and other parts of the province, as well as the headquarters offices in Edmonton.

Premier Greenfield states that the audit is not intended as a means of doing any detective work, or for the purpose of implicating anybody or any particular department, not will it have any political significance. It is wholly for stock-taking purposes, in order that a better understanding of the province's actual status may be obtained.

Sam Hodgson and V. C. Dunnigan were not present at the press meet in Calgary this week.

SIX TEAMS TO COMPRISE THE CROW HOCKEY LEAGUE

Fourteen delegates were present at the annual meeting of the Crow Hockey League held in Lethbridge last Saturday, and preparations for a strenuous and early start were made.

Macleod will not have a team this year, but Bellevue will fill the vacancy with a team under the leadership of "Doc" Barber, of Blairmore fame. Bellevue promises a good team and are ready and eager for the fray.

George Cruickshanks, of Hillcrest, was elected president for the ensuing year. All clubs were unanimous in electing an outside man for that position, especially one not connected in any way with any team or club, and the meeting was assured that Mr. Cruickshanks would be impartial in all decisions. He is an old hockey player, and boasted baseball in 'The Pass last summer.

Other officers elected were as follows:

Honorary President—R. A. Wright, Lethbridge.

First Vice-President—Mr. Lamont, Taber.

Second Vice-President—George Kellogg, Coleman.

Secretary-Treasurer—Mr. Powell, Coleman.

Executive—One member from each club, to be named by the club.

It was decided to play senior hockey this year, thereby putting the winning team in line to challenge for the Herald-Journal cup at the end of the season. The clubs were ordered to pay the affiliation fee of \$10.

P. V. Lewis, of Lethbridge, was named as official delegate to the A.H.A. annual meeting at Calgary on Saturday next.

The colors under which the teams

of the league will play this year are

Coleman—Undecided.

Blairmore—Blue and White.

Bellevue—White and Green.

Pincher—Red and White.

Lethbridge—Maroon and White.

Several other matters were discussed, such as size of rink, lighting, schedules of games and guarantees, and also the resident rule.

W. H. Chappell and M. G. Rhynas represented Blairmore at the above meeting.

The Reward

A woman post shook the door of heaven. "Here I am," she said. "Admit me."

St. Peter greeted the new soul with a question. "How many children have you mothered?" he asked unrolling the Entrance Record.

"None," she said. "What a foolish question! Children would have taken my time from art. But I wrote six books of poems—lovely poems, too!"

"How many husbands have you loved?" asked the Saint, without comment on her speech.

"Six," she replied the applicant. "Men are a bore. I love a word of time. Only art is real; only thought is worth while. You should read my poetry!"

"Madam," said the heavenly gatekeeper with angelic politeness. "You and your poetry may go to hell." And he locked her out again.—Life.

A Disarmament Danger

One hand was all he used to steer. The other arm hugged Myrtle; They did a skid, and then, oh dear, The pecky Ford turned turtle.

Our observation in Blairmore has been that most of the "wild, wild women" are young enough to be cured by broken doses of spanking.

Where Railway Revenue Comes From

Certain statements made before the board of arbitration at Ottawa on the wage disputes between the Canadian National Railways and their employees would appear to have a direct bearing on Canada's outstanding financial problem, namely, how to put an end to the appalling deficits in the operation of the national railway system.

Ever since the deficit on the Canadian National Railways was shown some time ago to amount to a million dollars or more a week, stationmen, financiers, railway managers, and, last but not least, Canadian taxpayers, have been deeply concerned in striving to find some way of relief from such disastrous losses. While politicians have been striving to find the responsibility for creating conditions leading to these deficits upon political opponents, and while pessimists have talked blue ruin and inevitable bankruptcy, men with constructive minds and not at all concerned with pettiness with an eye single to the good of the railways and the welfare of the Dominion.

Probably the suggestion which has attracted greatest attention and carried most weight with thoughtful people is that only through an increase in population, with consequent increase in production, and therefore in railway traffic, can the true and lasting remedy be found. Economies effected in operation costs at the expense of efficient service might serve to temporarily reduce the deficit, but such reduction would only be of a temporary character and in the long run would prove to have been pennywise and pound foolish. More traffic, and therefore greater earning power, offers the only permanent solution.

The question then presents itself: How to bring about that increase in traffic? In this column we have urged the adoption of a vigorous and well directed immigration policy with a view to bringing about the settlement without further delay of the enormous area of untitled lands in the West, and the prosecution of such a policy without intermission until the desired result has been achieved.

In this connection it is to be noted that the statements made before the board of arbitration at Ottawa already referred to are highly significant. They have a direct bearing on this question, and certainly go to support the arguments already advanced. Addressing the board of arbitration, F. P. Brady, of the Canadian National Railways, declared that the railways would be "60 better off without passenger traffic, and that sleeping cars and observation cars were invariably a source of loss, while A. C. Ryan, for the Canadian National, made the statement that all the railway's profits are made during the last five months of the year when the grain is moving.

Of course, passenger traffic must be cared for whether it is a paying proposition or not, but if observation cars, which are a luxury and not a necessity, invariably lose money, then they should be reduced to a minimum or discarded altogether. Furthermore, inasmuch as it is only the well-to-do who make use of sleeping cars, rates should be advanced to a figure where such cars would not be operated at a loss, even though they did not produce a profit. Or the rate should be reduced to a figure that would make it possible for the less well-to-do to use them, thus obviating these cars running across the continent only partly filled. Volume at a less rate would be more profitable than partly empty cars. The average Canadian taxpayer should not be called upon to provide comfort for others which he cannot himself afford to enjoy.

The amount of money it requires to build a sleeping car or an observation car will build several freight cars, and according to these railway officials, it is freight that produces profits. Again, be it noted, freight profits are piled up when there is a heavy and continuous freight movement, as is the case when the grain is moving. It is not the haulage of the products of the factories that keeps the railways busy during the last five months of the year, but the products of the farms. But if, through immigration and the creation of conditions which will keep the people on the land, the number of cultivated farms in Canada are doubled, or trebled, as is quite possible, not only would the volume of grain traffic be enormously increased during the last five months of the year, with still larger profits to the railways, but these additional millions of people on the farms would create an enormous demand for manufactured goods, fuel, lumber and merchandise of all kinds, which would provide a much heavier freight traffic throughout the other seven months of the year.

What our Canadian railways need more than anything else is more traffic to keep profitably loaded trains rolling over the tens of thousands of miles of rails in this country. In order to create that larger traffic there must be more people in Canada—people who in the first place produce something from the almost limitless natural resources of this Dominion, and who, in turn, would require to be supplied with those things, manufactured and otherwise, which they do not themselves produce but must have to sustain life and enable them to carry on the work of production.

A national policy to encourage production is the only way to save the National Railways and make them earners of profits instead of producers of deficits.

Romance Of The Quest

Thirst for Adventure is at Bottom of Expedition

Geography, geology, zoology, the study of weather conditions—these are some of the branches of science for which the Quest is seeking new material; and at the bottom of it all is the unquenchable thirst for adventure and for triumph over difficulty which has given our race so glorious a share in the penetration of the earth's secrets. Like each successive expedition to the polar zones, this one represents in its equipment all the experience of past voyages, and all the recent development of technical science than can be turned to the account of the explorers. —London Daily Telegraph.

Sure Protection For You While You Travel

You may find the water bad, some poorly cooked food may excite trouble, a draught from a car window may give you an ache or pain, a cold room, damp sheets may cause rheumatic twinges. Remember this—any pain that is caused by congestion yields rapidly to Nervine. When your stomach is sour and upset, just try the magical effect of twenty drops of Nervine in sweetened water. If cramps waken you in the dead of night, Nervine will fix those awful cramps in a hurry. Keep a 35-cent bottle of Nervine in hand—always.

Inconsiderate.
"Now look here, Johnson, this man is doing double the work you do."
"That's what I've been telling him, sir; but he won't stop."

Rub it in for Lame Back.—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The oil will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it. The oil is so viscous. As the liniment sinks in the pain comes out and there are ample grounds for saying that it is an excellent article.

Haddock's will lay as many as 1,500,000 eggs each in one season.

Minard's Liniment for Gout in Cows

The origin of Free Masonry, or even its name, cannot be traced with certainty.

A DESIRE TO EAT—WHAT YOU WANT

Stomachs Can be Restored to a Healthy Condition.

Not to be limited in diet, but to eat whatever he pleases is the dream of every dyspeptic. No one can eat what he pleases to restore any stomach to this happy condition, because all people cannot eat the same thing. However, it is possible to tone up the digestive organs that a pleasing diet may be selected from articles of food that cause no discomfort.

When the stomach lacks tone there is no quicker way to restore it than to build up the blood. Good digestion is rich, red blood is impossible, and Dr. Williams' Pink Pills offer the best way to enrich the blood. For this reason these pills are especially good in stomach trouble attended by this blood, and in attacks of nervous dyspepsia. Proof of the value of Dr. Williams' Pink Pills in cases of indigestion is given by Mr. John A. McDonald, Tarbot, N.S., who says: "Every sufferer from indigestion has my heartfelt sympathy, as I was once myself a bond slave to it. Eating all became a trial, and as time went on I became a mere skeleton, my former self. I took all sorts of recommended medicines, doctors' and advertised, but to no avail. Then a friend said to try Dr. Williams' Pink Pills. I got a box and I thought before they were done I could feel a change. Then I got six boxes more, and by the time they were used I was eating my meals with vigor and enjoyment. My general health is now good; and it is no wonder that I am an enthusiastic advocate of Dr. Williams' Pink Pills."

You can procure Dr. Williams' Pink Pills through any dealer in medicine or they will be sent you by mail at 50 cents a box or six boxes for \$2.50 by writing direct to The Dr. Williams Medicine Co., Brockville, Ont.

Economical.
Hubby—if that medicine makes you feel worse, why do you take it?
Wifey—"I'm not going to pay \$2 for medicine and then waste it."

The date is as essential an article of diet to the Egyptian as rice is to the Hindu.

It Will Prevent Ulcerated Throat.—At the first symptoms of sore throat, which presage ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

Beds, tables, chairs and stools are shown in Egyptian carvings, as far back as 4000 B.C.

Minard's Liniment used by Veterinaries.

Millions For Roads In West

Twenty Million Will be Spent on Rural Highways.

At least \$20,000,000 will be spent on highways and market roads in Western Canada during the next five years according to the provincial programmes which have now been submitted and approved by the Federal authorities. Manitoba programme provides for the construction of 4,000 miles of roads at an estimated cost of \$6,802,250. The Dominion Government Act providing for subsidies will result in reimbursing the province to the extent of \$1,402,255. Saskatchewan has outlined construction covering 2,500 miles which is expected to cost \$5,325,500, of which \$1,806,255 will be repaid by the Federal Government. Alberta intends to go ahead with 2,475 miles of roadway, the estimated cost of which is \$3,604,525. Of this sum \$1,477,819 will be paid by the Federal Government. This programme is for rural roads and does not include the sums which will be spent as civic enterprises. The highway systems of the three prairie provinces will be thus linked up.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

Centenarian Still Works

More than a century old and still working. This is the record of Charles Quick, who celebrated his 101st birthday recently. Easily the oldest man in Vancouver, if not in all Canada, he is said to be the oldest working man at that age in the entire country. From his little shop at 1549 Pender Street he sends out horse racing saddles to all parts of the civilized world.

Different Methods.
"Eddie—My mamma got a nice present yesterday" and she drew her arms around papa's neck. What does your mamma do when she gets a nice present?
Eddie—She tells daddy she'll forgive him, but he mustn't stay out late again.—Boston Transcript.

Chemistry Class.
Teacher—"Now can any one of you name a fluid that will not freeze?"
Little Jimmie raises his hand after a long silence.
Teacher—"That's right, Jimmie; what is it?"
Jimmie—"Boiling water."

Minard's Liniment for Colds, etc.

Blue Eyes And Genius

All U.S. Presidents But One Have Had Blue Eyes.

It is a curious fact that many of the world's greatest men have had blue eyes. Among them being:ocrates, Shakespeare, John Locke (the great metaphysician), Lord Bacon, John Milton, Goethe, Benjamin Franklin, Napoleon the Great, the great French historians, Romain, Bismarck, Mr. Gladstone, Professor Huxley, Professor Virchow and others. It is stated that, singularly enough, all the Presidents of the United States, except General Harrison, have had blue eyes.

A man aged 41 may count on living until 67, according to statistics.

The Miller's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of the stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily evacuated with other refuse from the bowels. Soundness is insured, and the health of the child steadily improves.

Trout From Far North

First Shipment Made From Plant at Black Bay.

A scow load of lake trout has reached the town of McMurray from the Mackenzie Basin Fisheries plant at Black Bay on Lake Athabasca, and further shipments, it is expected, will be made before the close of navigation on the big river. This is the first shipment of northern lake trout that has reached McMurray for shipment to the markets of Canada and the United States, and demonstrates one of the unbounded resources of the untapped regions which lie beyond the Athabasca.

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

The greyhound hunts entirely by sight. Its narrow muzzle and small nostrils affecting its sense of smell.

Minard's Liniment Co. Limited.
Sirs—I have used your Minard's Liniment for the past 25 years and whilst I have occasionally used other liniments I can safely say that I have never used any to equal yours. If rubbed between the hands and inhaled frequently, it will never fail to relieve a cold in 24 hours. It is also the best for bruises, sprains, etc.
Yours truly,
J. G. Lewis.

Providential.
He was more religious than educated and so not to be greatly censured for this "testimony" at prayer meeting: "I thank the Lord that I have three wives in heaven."

Charge Spanish Officers Have Illtreated British In Foreign Legion

London.—Great Britain has asked Spain to allow a British representative to proceed to Morocco to make an independent and impartial inquiry into allegations of ill-treatment by Spanish officers of British subjects who have enlisted in the Spanish foreign legion.

This announcement was made in the House of Commons by Cecil Harcourt, under secretary for foreign affairs, in answer to a question by Earl Winterton. The latter asked if the Government were aware of the serious allegations made against Spanish military authorities by British subjects, mostly ex-service men, recently enlisted in the Spanish foreign legion, who claim that conditions of pay and service, promised by Spanish consuls here, have not been carried out.

Earl Winterton asked further if the Government were aware that some of the British who protested were ill-treated, robbed and sent to Gibraltar, and that others who actually joined the legion had been kicked and beaten by Spanish officers.

A number of Canadian ex-service men are included in the British subjects who enlisted for service in Morocco. One vessel that sailed from New York during the past summer with recruits for the Spanish foreign legion, carried 32 men who had been in service in the Canadian forces during the war.

Will Protect Upper Silesia Decision

New German Government Says Settlement Was Illegal.

Berlin.—The Reichstag voted confidence in the new ministry of Dr. Brüning. The vote was 230 against 132. The majority was made up of Majority Socialists, Independents, Socialists, Centre and Democrats.

Chancellor Brüning declared that the new government's viewpoint regarding Upper Silesia differs in no way from that of the preceding government. He declared the German Government would protest against the recent decision of the council of the League of Nations concerning Upper Silesia on the ground of the illegality of the Allied Supreme Council having referred the question to the League of Nations. This procedure, he said, was not provided for by the treaty of Versailles.

Want To Determine Labrador Boundary

Sir Patrick McGrath Will Search Hudson Bay Records.

Winnipeg.—Sir Patrick McGrath is at present in Winnipeg, having been commissioned by the Newfoundland Government to search into the records of the Hudson's Bay Company to find, if possible, facts pertaining to the boundary of the Labrador. This question is now to come before the privy council in the nature of a suit between the Dominion of Canada and the Crown Colony of Newfoundland. Sir Patrick has come to Winnipeg, he said, because since it has become the headquarters of the Hudson's Bay Company, it is assumed that records of great importance are filed here.

Dog Killed While Saving Master. Windsor.—Breaking his leash, a collie dog owned by Abraham Nolan rushed to the assistance of his master when a bandit attacked him in the yard, and soon forced the man to abandon his attack. Infuriated by his failure to overpower Nolan, the would-be robber fired one shot at the dog, killed it instantly. He then escaped.

Curing Colds. Don't belittle the importance of an ordinary cold, for it possesses troublesome if not dangerous possibilities. Take the trouble to avoid colds, but if you get one anyway fight it as you would fight a rampant blaze which, unless quickly extinguished, you know will destroy the house. And don't give your cold to anyone else, or put yourself in a way of catching someone else's cold.—Cleveland Plain Dealer.

Art Treasures Destroyed. Antwerp.—Fire badly damaged the Royal Museum of Fine Arts. Several of the priceless masterpieces in the building were destroyed.

Give your local merchants a chance. Buy at home.

Tree Planting Car Was Well Attended

Prairie Farmers Received Valuable Information From Mr. Mitchell.

The Tree Planting Campaign in Western Canada, inaugurated by the Canadian Forestry Association last year, received a material boost through the tour of the Association's Tree Planting Car during the past five months. The car was in charge of Mr. Mitchell and his assistants. For several weeks the car was attached to the Saskatchewan Government's "Better Farming Train." During this period 37,774 persons visited the car and heard Mr. Mitchell lecture. Scores of farmers brought their tree planting problems to the attention of Mr. Mitchell and they received personal consideration. A special feature of the tour this year was the assistance rendered in planning in planning and laying out parks. Plans and detailed instructions for planting were supplied gratis to a number of towns.

Many prairie farmers, however, believed that to plant a windbreak or a few trees around their homes was a costly operation and beyond their slender means. In his lectures Mr. Mitchell demonstrated that such was not the case and that with the expenditure of a little time and money windbreaks could be worked if the farmer went about the job in the right way. Many failures to successfully grow trees in localities where soil-drift occurs or where moisture is scarce has resulted in no trees being planted. The tree planting campaign aims to show the farmer how to plant, what to plant and when to plant, so that the moisture conditions may be a well laid out windbreak means a great deal on a farm as a protection for the crops. A few trees about the house makes the house a home and brings a measure of contentment not found when there are no trees.

Radium Treatment Stolen

Needles Worth \$10,000 Disappeared From Hamilton Hospital.

Four radium needles, worth not less than \$10,000, have disappeared at the Hamilton City Hospital. The radium was the property of Dr. F. B. Mowbray and Dr. K. M. McGraw, who brought the tube containing the valuable needles to the hospital to be used in an operation.

The needles were inserted in an incision made in the course of an operation. It is said, and there is nothing to the contrary, that the needles were used in the night to work the beneficial effects of which radium only is capable.

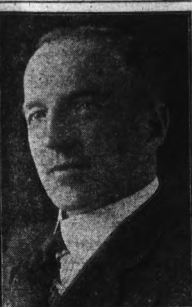

The owners returned to reclaim the needles from the wound, but they had disappeared. The nurse and orderly in charge of the patient were questioned by the hospital authorities, and detectives were summoned when the loss was discovered, but could give no information to show how the needles had disappeared.

Ontario's Public Lands

Raising of Timber Dues Gives Province Record Receipts.

Toronto.—The province of Ontario will have obtained more money from its public lands in the fiscal year just closed than it ever received in a previous year, the raising of timber dues accounting for most of the increase. When this year's figures are completed, the revenue will almost reach four million dollars, or an increase of nearly 100 per cent. in two years.

WESTERN EDITORS

Hon. C. D. MacPherson, Minister of Public Works. Portage la Prairie, Manitoba Government.

Gulf Storm Caused Million Dollars Damage

Jacksonville, Fla.—The entire waterfront of St. Petersburg was wiped out by the gulf storm, the worst since the city has ever experienced, according to a message received by the Times Union.

Fort Meyers, Fla.—The fiercest gale this season raged here for thirty-six hours, attaining a maximum velocity of one hundred miles an hour. Transmission service was prostrated while the property loss for Lee County is estimated to total well over a million and a half dollars.

Reports from Sanibel and Captiva Islands said that water covered the entire islands. Estero, Island, near here, on which two beach resorts are located, was badly damaged, the cottages and other buildings being wrecked.

Local railroad officials said this city would be without transportation service for three days. The highways out of Fort Meyers are almost impassable, and many houses in Punta Gorda were either badly damaged or washed away.

Record Grain Shipment

C.P.R. Moved 1,579 Loaded Cars in 24 Hours.

Winnipeg, Man.—The Canadian Pacific Railway broke the world's record as far as grain handling is concerned by moving east from Winnipeg 1,579 loaded cars in 24 hours. These cars were handled in 41 trains and contained between 2,500,000 and 3,000,000 bushels of grain. If the cars were placed in a continuous line without the locomotives attached, they would cover a distance of twelve miles.

Christmas Toys From Germany

Cargo Was Loaded at Antwerp and Rotterdam.

Montreal.—What is stated to be the first cargo of German merchandise of any considerable size to reach Canada since the commencement of the war has arrived here on the freighter West Kebar. It consists of toys for the Christmas trade, together with a quantity of German clocks, watches and glassware. The cargo was loaded at Antwerp and Rotterdam.

Every dollar spent in your home town is a boost for the community.

Unanimous Vote Cancels Big Railway Strike In United States

Entombed Miners Rescued

Britannia Beach, B.C.—Two miners were rescued from a shaft at the 2,300-foot level in the copper mines here, after exactly a week in their living tomb. The men, Francis F. Patenaude and L. P. Craig, were working in the narrow shaft when a rock-slide closed the mouth of the shaft. A little food, a trickle of water and air from a tiny aperture near the top of the shaft kept the men alive while their work mates slaved day and night to remove the obstruction and set them free.

Craig and Patenaude are in hospital and are reported to be doing nicely.

Prince Of Wales Goes To India

Political Unrest In East Causes Anxiety Over Trip.

London.—The Prince of Wales left the Victoria Station at noon today for Portsmouth to embark on the battle-cruiser Renown for a tour of India and Japan. A great crowd gathered the station gave Britain's heir-apparent an enthusiastic send-off, while on the platform were King George, Queen Mary, Princess Mary, Prime Minister Lloyd George, several members of the British Cabinet, U.S. Ambassador Harvey, Japanese Ambassador Hayashi and other distinguished personages.

Anxiety over the Prince's journey has been caused by the troubled political conditions in India. The possibility of an attack on him is minimized here but it is feared the Indian Nationalists led by Mahatma Gandhi, may possibly attempt to carry out their threat to call strikes in each city visited by the Prince.

Should Double Japs War Construction

U.S. Engineer Suggests Confrontation At Conference Fails.

San Francisco.—The U.S. should build two warships for every one constructed by Japan if the Washington conference on the limitation of armaments fails of its purpose, John Hays Hammond, internationally known mining engineer, declared here upon his return aboard the liner Golden State after three months in the Orient.

Japan has already an unfavorable trade balance and she realizes it means the depletion of her gold resources to attempt to keep pace with this country in war construction.

Montreal.—That the Japanese are going to the Washington conference with something that amounts to an ultimatum, was the view expressed here by Col. Robert J. McCormick, president of the Chicago Tribune, who is passing through this city on his way back to Chicago from a holiday spent on the lower St. Lawrence.

Strike In South Africa Settled

Skilled Artisans Have Compromised On Wage Difference.

London.—A Reuter despatch from Cape Town, South Africa, reports the settlement of the strike called on October 7 by the skilled artisans employed by that municipality.

The strike arose out of an announced ten per cent. cut in wages, which it was claimed by the men was a violation of the existing agreement. The settlement was on the basis of a compromise, whereby certain of the men who have long service records will be placed on a fixed establishment, with privileges, while the remainder will receive the trade rates without any privileges.

Plan Restoration Of Monarchy

New Cabinet Will Soon Be Formed In Portugal.

Madrid.—Portuguese Royalists are plotting the re-establishment of a monarchy in that country. It is learned in advices from Lisbon. A decision relative to the Royalist plot has been sent to the foreign minister in Lisbon by the Portuguese consul at Tuy, Spain.

Complete calm reigns over Portugal, and it is reported a new cabinet composed almost entirely of members of the Republican Guard will be formed soon. Newspapers here print with reservations, reports that the president of the Portuguese republic will resign shortly because of ill health.

Chicago.—The railway strike, scheduled for October 30, was averted when leaders of the switchmen, trainmen, conductors, engineers and firemen at a joint meeting adopted resolutions withdrawing authorization of a walkout, and officials of the railway telegraphers' organization announced they would take similar action. These were the only unions which had authorized a strike.

The vote calling off the strike was unanimous by organizations, W. G. Lee, president of the Brotherhood of Railroad Trainmen, announced. The official wording of the resolution adopted was that the strike be declared not effective.

"The vote in the individual unions was, unusually, close, however, the firemen particularly holding lengthy arguments before agreeing to cancelation of the strike; order, the labor chiefs said, in some of the groups the ballot was described as 'the closest' in history on a similar question." All of the differences were ironed out by the different unions, however, and the final showdown found them all casting their ballots for "no strike."

L. E. Sheppard, president of the Order of Railway Conductors, said that the unions had decided to call off the strike because of the growing public opinion that the strike would be against the labor board, and consequently the government, and not against the railroads.

"It was evident also that the Washington administration was opposed to us, and that we have had little chance of gaining our objective," said Mr. Sheppard.

"We called this strike to gain certain rights to which our men were entitled," Mr. Sheppard told the Associated Press.

"It soon became evident, however, that the roads were succeeding in their misleading propaganda to the effect that we really would be striking against the government."

"This railroad propaganda found its way to the United States labor board. This government agency told us that it would look on a strike as against it, and the government, and not against the roads, and that the full force of the government would be brought to bear against us if we walked out. Under such circumstances there was nothing to do but annul our orders for the October 30 walk-out."

New Regulations For Toronto Police

Cannot Attend Places of Amusement Without Permission.

Toronto.—New regulations for the police of the city, which have just been issued, forbid constables from attending a theatre, race track, or other place of amusement while off duty without obtaining leave to do so. "Constables neglecting to avail themselves of the time at their disposal for rest and sleep and spending a large portion of their time in walking streets," the regulations state, "are to be reported to the chief constable."

A policeman entering a public house or liquor shop, except on duty, is liable to dismissal. The new regulations state that a policeman may be dismissed without any reason for such dismissal being assigned.

Robbers Put Victim Into Refrigerator

Butcher in Montreal Almost Frozen When Rescued.

Montreal.—While Alibi Laboussiere, butcher, Mount Royal Avenue, was talking on the telephone in his store, two bandits entered and ordered him to throw up his hands at the point of revolvers, stole \$780 from his pockets and then threw him into the refrigerator. He was rescued almost frozen to death some hours later.

Quake Alarms Italy.

Milan.—Earthquake shocks were felt in the cities of Massa and Carrara on the Tuscan coast of Italy. Concomitant damage was done and the frightened people of both cities camped during the night in the open fields. Despatches from Florence state that a cyclone has ravaged that city.

Refuge Mediation.

Paris.—Premier Briand refused to entertain proposals from Premier Gounaris and Foreign Minister Palatis, of Greece, looking to the possibility of mediation between Greece and Turkey. It is asserted by newspaper here.

Opium Case Tonight

A local Chinaman, who is charged with being in possession of opium, comes up for trial before Justice Gresham at the town hall tonight at 7 o'clock. The charge is laid by Mr. Lobb, a detective under the Inland Revenue Act, Mr. C. F. Harris, of Lethbridge, will conduct the case for the prosecution, while Mr. L. H. Putnam, of Blairmore, will conduct the defence. The prisoner is in charge of Const. McLean, of the R.C.M.P. The accused, who was admitted to bail last week end, made an attempt to get away on Sunday evening last, but was captured by Chief Carter at Burmis, while the train was stopped there, and was taken back to Blairmore and placed in charge of the R.C.M.P.

We understand that the old rink is to be torn down by volunteer, unemployed and loaded on flat cars for shipment to Lethbridge, provided the sporting element of that city can raise the amount of freight charges. It is figured locally that the Lethbridge rink requires just about this amount of lumber to patch up the gaps in the city rink caused by the over-rapid exit of some of the city folks following the prospects of Lethbridge team winning as viewed at the end of the first period.

Leon, in the first grade, was struggling with subtraction. The teacher was doing her best to help him. "Leon, if you had seven pencils and lost three, how many would be left?"

"Please teacher, I can't do it in pencils." Then he added, "Maybe I could do it in candy."

"Well if you had seven pieces of candy and gave your brother three, how many would you have?"

"He'd take 'em all; he's bigger'n me," came the wistful protest.

So the teacher tried again. "If you had seven pencils and ate three, how many would be left?"

"Seven."

"Why, Leon, if you ate three, you wouldn't have seven left."

"Yes ma'am," came the patient response, "three inside and four outside."

What's "ALWAYS IN TROUBLE"

BELLEVUE COMMUNITY INSTITUTE

Work on the new institute building at Bellevue is progressing rapidly and it is hoped to have the place closed in before the severe weather is with us.

The new building will be one of the most imposing structures in the Crows' Nest Pass and is estimated to cost complete in the neighborhood of \$18,000.

The contract is in the hands of Messrs. Peacock and Jones, of Calgary, while the plumbing and heating sub-contract has been let to Snyder & Co., also of Calgary.

The new building is to serve practically the purposes of a Y.M.C.A. The ground floor will consist of a large gymnasium, 30 x 50 feet, with a twelve-foot ceiling; a boiler room and coal store. The second floor will contain a church auditorium 50 x 30 feet, two rooms 15 x 10 feet, with open fireplaces. The top floor will have janitor's quarters, billiard room for two tables, shower baths, open fire places, library and reading room of 30 x 30 feet. Each floor will be equipped with lavatories and toilet rooms.

The building will be beautiful in architecture. The basement will be of cement, first to second floor of hollow tile construction, and the top flat of solid brick. The structure will carry heavy steel reinforcements. On the west side will be a staircase extension, while an extension for toilets will be on the east side.

The new institute will fill a long felt want in the community.

Hon. Arthur Meighen, Premier
